[Real Luck Group Deck](#)

Luckbox is an award-winning betting company that offers legal, real-money wagering, live streams, and statistics on all major esports and sports on desktop and mobile devices. Their proprietary platform is built to deliver a superior betting experience to a new generation of bettors, thanks to purpose-built data-driven and agile approach to marketing and UI/UX. The Luckbox team has rich experience in the gambling and video game sectors with a proven record of building revenues in online gaming. Luckbox is live in more than 80 territories and is poised to deploy its user acquisition strategy in conjunction with upcoming catalysts.

Investor Highlights

- Award-winning proprietary tech stack built for next generation of bettor
- \$17.2m CAD cash on hand, no debt, attractive share structure
- Upcoming catalysts this year include casino launch and user acquisition kick-off

About Thomas Rosander

Thomas has 16 years of experience in the igaming and video gaming industry and was previously CEO of Dunder Casino where annual revenues reached €80m in less than three years. Before that, Thomas was COO and CPO at Mr Green Online Casino and built business Intelligence for bwin (Entain) and Electronic Arts.
