

## **Outback Goldfields Corp.**

**Symbol:** TSX-V: OZ

**Market Cap:** ~\$15m

**Sector:** Mining | Gold

**Purpose:** Raise Awareness / Open Market Buying

Outback Goldfields is led by an experienced group of mining professionals focused on exploring for high grade gold on four highly prospective properties in the historic Victorian Goldfields of Australia. The Company is in the midst of its maiden exploration program and intends to drill on three of the four properties in 2022. The Victorian Goldfields, which has produced over 80Moz gold historically, is experiencing a modern-day gold rush and is home to some of the highest grade and lowest cost mining in the world. Outback is part of the Inventa Capital group of companies.

### **Investor Bullet Points**

Outback has a mantra for the company that is summarized in these 3 points.

#### Size of the Prize

- Fosterville in the area is one of the highest grade, highest margin mines in the World

#### Cost of the Test

- We have walk up targets, mining friendly, lots of infrastructure, plus our mining manager lives on our tenements

#### Chance of Success

- 80 million ounces of Gold produced in the region. Multiple companies (Mawson, Catalyst, Navarre, Fosterville South) that are all having success.

### **Chris Donaldson, CEO**

Experienced executive with 25 years focus on capital markets, government and community relationships. Formerly director of Corporate Development with Western Copper and Gold (TSX and NYSE American listed company).

### **Craig Parry, Chairman**

Geologist, an experienced executive, and a member of the Australasian Institute of Mining and Metallurgy (AusIMM). Over fifteen years of mineral exploration experience in gold, petroleum, diamonds, iron ore, copper, coal and uranium. Mr. Parry holds an Honours Degree in Applied Geology from the University of New South Wales. Mr. Parry is the Chairman of Vizsla Resources, Skeena Resources, Outback Goldfields and Goldbull Resources.
