Purpose: Raise Awareness / Open Market Buying

Adyton Resources Corporation (ADY) is a gold and copper company recently listed on the TSX.V and soon to be quoted on the OTC market and focussed on developing gold and copper resources in world class mineral jurisdictions. The initial focus is on PNG which is globally recognised for hosting many tier one mining assets. Adyton Resources has two primary projects with an initial starting position in excess of 1.1Moz of gold. The Feni project is a copper gold deposit located within the Lihir volcanic arc and is situated amongst many multimillion oz producers. The Feni drilling program is scheduled to commence in mid-May 2021.

The Fergusson Island project is a gold deposit with potential near-term production and is mid-way through a drilling program which to date has exceeded expectation. The company has a proven Board and management team committed to advancing the company in a socially, economically and environmentally sustainable manner.
