

## **E3 Lithium Corp.**

**Symbol:** TSXV: ETL | OTCQX: EEMMF

**Sector:** Mining

**Purpose:** Raise Awareness / Open Market Buying

E3 Lithium is a resource development company located in Alberta, dedicated to establishing a new benchmark in lithium production in North America.

E3 Lithium's vision is to be a global leader in responsibly sourced lithium, fueling the global transition towards a brighter energy future. The Company continues to position itself to be one of the few North American projects able to produce battery-quality lithium products before the end of the decade. The Company is focused on creating long-term, sustainable value for the future by creating a world-class, large-scale, long-life lithium production company. Leveraging proven technology and supported by a leading team and strong global partners, E3 Lithium's goal is to produce high purity, battery grade, lithium products, initiating a new hub in the intercontinental critical mineral supply chain.

### **Investor Bullet Points:**

- **Clear Pathway to Commercialization**
  - The Clearwater Project initial production aims to be 12,000 tpa LCE, with potential to expand to 36,000 tpa LCE
  - Advanced stage of development with PFS released in June 2024
  - Significant de-risking through anticipated completion of demonstration facility in 2H/2025
- **Tier 1 Lithium Jurisdiction**
  - Geopolitical stability with a proactive regulatory framework specifically tailored to lithium
  - Synergies with oil & gas industry expertise and operations
- **Robust Projects and Growth Potential**
  - underpinned by a 1.13 Mt LCE Proven and Probable reserve
  - A single contiguous M&I resource containing over 16.2 Mt of battery quality Lithium Carbonate Equivalent (LCE) that can support 50 years of production
- **Experienced Management & Board**
  - Experienced management team with in-house expertise to design and construct project
  - Proven track record of project advancement (resource and technology development, technical studies, pilot plant, Pure Lithium joint development agreement, etc.)

### **Chris Doornbos – CEO**

Chris Doornbos is an entrepreneur, aviator and founder of emerging ideas and technology, with a passion for collaboration and innovation. He is the founder of E3 Lithium, a world leading lithium resource and technology development company. Chris emphasizes risk management, developing and managing an exceptional technical team and well-strategized project generation; with a clear focus on developing and capturing value for shareholders. Chris has a broad range of experience in capital raising, project execution and M&A. Chris is a founding member of the Battery Metals Association of Canada and former Chair of the Canada ISO mirror committee for TC333 (lithium standards).
