

## **Hydreight Technologies Inc.**

**Symbol** TSXV: NURS | OTCQB: HYDTF

**Sector:** Healthcare

**Purpose:** Raise Awareness / Open Market Buying

Hydreight Technologies Inc. is a profitable, high-growth health tech company operating one of the largest mobile clinical networks in the United States. The Company's integrated telehealth, pharmacy, and provider platform enables 3,000+ nurses and 200+ physicians to deliver care directly to patients nationwide, powering over 400 D2C healthcare brands. Hydreight's fully compliant infrastructure spans all 50 states and supports services across GLP-1 weight loss, IV therapy, hormone health, and diagnostics. With strong recurring revenue, positive adjusted EBITDA, and exposure to fast-scaling wellness sectors, Hydreight is positioned to capitalize on the \$4.9T U.S. healthcare opportunity.

## **Investor Points:**

- **Explosive Revenue Growth (Infrastructure-Scale)**
  - Revenue grew from approximately \$400K to over \$40M+ in five years
  - Represents roughly a 100x increase (~9,900% total revenue growth)
  - Achieved alongside positive adjusted EBITDA and strong cash flow, which is rare in digital health
- **Fully Compliant, Scalable Platform Across All 50 States:** Hydreight is one of the only healthcare platforms with an integrated, nationwide network of doctors, nurses, and pharmacy partners — enabling seamless launch and scale for DTC healthcare brands.
- **Major Exposure to High-Growth Healthcare Markets:** Active in GLP-1 weight loss, at-home diagnostics, TRT, peptides, anti-aging, and longevity, representing \$500B+ in projected global market opportunity by 2030.

## **Shane Madden**

**Founder & Chief Executive Officer**

Shane Madden is the Founder and Chief Executive Officer of Hydreight Technologies Inc., a publicly traded digital health company revolutionizing how healthcare is delivered across the United States. A serial entrepreneur and healthcare operator with over 15 years of experience, Shane has built and scaled multiple high-growth businesses across franchising, healthcare, and technology.

Under his leadership, Hydreight has grown from concept to one of the fastest-growing companies in North America, ranking #56 on Deloitte's Technology Fast 500 and #13 on the Financial Times' Americas' Fastest Growing Companies list. Shane's vision and execution have been instrumental in building one of the only fully compliant, tech-enabled healthcare platforms with national reach, connecting patients to 3,000+ nurses and 200+ doctors across all 50 states.

With a strong focus on decentralized care, regulatory compliance, and D2C healthcare enablement, Shane continues to lead Hydreight through its next phase of scalable, profitable growth in the \$4.9 trillion U.S. healthcare market.

## **Vahid Shababi**

Vahid Shababi is one of the key architects behind Hydreight's extraordinary revenue expansion over the past five years. A seasoned technology operator and growth strategist, Vahid has scaled multiple SaaS and digital health companies from early stage through acquisition or public listing.

Prior to Hydreight, Vahid was a senior executive at PerfectMind, a SaaS platform acquired by TSG (an Advent International portfolio company), and has overseen several successful exits across healthtech and software verticals. In addition to Hydreight, Vahid serves as Chief of Growth at Victory Square Technologies, where he has played a pivotal role in scaling portfolio companies and leading go-public strategies.

## **Shafin Diamond Tejani**

Shafin Diamond Tejani is a serial entrepreneur, venture builder, and capital markets executive with a long track record of building and scaling technology platforms in regulated industries. He is the Founder and CEO of Victory Square Technologies, a publicly traded venture builder that has launched, scaled, and invested in dozens of companies across digital health, fintech, AI, and emerging technologies.

Shafin has been recognized as an EY Entrepreneur of the Year, named Canadian Angel Investor of the Year, and inducted into the BC Tech Hall of Fame for his contributions to Canada's technology ecosystem. Over his career, he has helped raise and deploy significant growth capital, guided companies through public listings, and supported multiple strategic transactions and exits.

As Chairman of Hydreight, Shafin focuses on long-term strategy, capital markets, partnerships, and M&A, helping position the Company to capitalize on the massive shift toward digital-first healthcare delivery in the United States.
